Independent Auditor's Report

Board of Directors Public Defender Corporation for the Second Judicial Circuit

Report on the Financial Statements

We have audited the accompanying financial statements of the Public Defender Corporation for the Second Judicial Circuit (Corporation), a component unit of the State of West Virginia, as

of and for the year ended June 30, 2020, and the related notes to the financial statements, as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

Board of Directors Public Defender Corporation for the Second Judicial Circuit Independent Auditor's Report Page 2

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Corporation as of June 30, 2020, and the changes in its financial position and its cash flows for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, the pension information, and the postemployment benefits other than pension benefits (OPEBs) information, as listed in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated October 5, 2020 on our consideration of the Corporation's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the

Board of Directors Public Defender Corporation for the Second Judicial Circuit Independent Auditor's Report Page 3

Corporation's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Corporation's internal control over financial reporting and compliance.

Prior Period Financial Statements

The financial statements of the Corporation as of June 30, 2019 were audited by other auditors whose report dated September 10, 2019 expressed an unmodified opinion on those statements.

Maher Duessel

Pittsburgh, Pennsylvania October 5, 2020

This management's discussion and analysis of the Public Defender Corporation for the Second Judicial Circuit (Corporation) of the State of West Virginia financial performance provides an overview of the Corporation's financial activities for the fiscal years ended June 30, 2020, 2019, and 2018 and identifies changes in the Corporation's financial position.

Overview of Basic Financial Statements

These statements are in two parts – management's discussion and analysis (this section) and the basic financial statements. The Corporation's financial statements are prepared on the accrual basis of accounting and are reported in accordance with accounting principles generally accepted in the United States of America. These statements include the statements of assets, liabilities and net position, the statements of revenues, expenses and changes in net position, the statements of cash flows.

The *statement of assets, liabilities and net position* presents the Corporation's assets, liabilities and net position as of the financial statements date. Through this presentation one can decipher the health of the Corporation by taking the difference between the assets and liabilities. An increase or decrease in the Corporation's net position from one year to the next is an indicator of whether its financial health is improving or deteriorating.

The *statement of revenues, expenses, and changes in net position* reports revenues and expenses when earned or incurred. This means that all of the current year's revenues and expenses are included regardless of when cash is paid or received, thus providing a view of financial position that is similar to that presented by most private-sector companies. This statement summarizes the cost of providing legal defense services to those individuals charged with a violation of the law but who cannot afford an attorney to defend themselves or to represent indigent persons or juveniles and mental hygiene cases as appointed by court.

Detailed Financial Analysis of the Corporation

Cash held by the Corporation at June 30, 2020, decreased by approximately \$5,000 from the prior year. Grants receivable increased by approximately \$39,000 due to funding from WVPDS for the month of June 2020 that was received in July 2020. Accounts payable increased by approximately \$2,500 due to the timing of bills received for services performed prior to June 30, 2020. Other post employment benefit liabilities decreased by approximately \$37,000 as of June 30, 2020 based on calculations and actuarial valuations.

Detailed Financial Analysis of the Corporation (Continued)

Deferred outflows related to post employment benefits, decreased by approximately \$4,000, and deferred inflows increased by approximately \$20,000, based on calculations and actuarial valuations. All other assets and liabilities remained consistent with the prior fiscal year.

Operating revenue for the fiscal year ended June 30, 2020 increased by approximately \$21,000 due to increased funding from WVPDS.

Operating expenses for the fiscal year ended June 30, 2020, increased by approximately \$37,000. Changes in expenses include an increase in salaries and wages (\$17,000), an increase in contracts expense (\$17,000), an increase in accounting expense (\$2,000), an increase in payroll taxes (\$1,000) and an increase in employee benefits (\$1,000). Changes in expenses also include a decrease in travel expense (\$2,000). All other expenses remained consistent with the prior fiscal year.

Capital Asset and Debt Activity

As of June 30, 2020, 2019, and 2018, the Corporation had capital assets amounting to approximately \$53,500, \$53,500, and \$53,500, respectively. The Corporation's capital assets include furniture, fixtures, and computer equipment. The assets were being depreciated over their useful lives of three to ten years. The accumulated depreciation on the capital assets amounted to approximately \$53,500, \$53,000, and \$52,000 respectively at June 30, 2020, 2019, and 2018. There were no disposals of capital assets during the current fiscal year ended June 30, 2020. Purchase of capital assets for the years ended June 30, 2020, 2019, and 2018 totaled approximately \$-0-, \$-0-, and \$-0-, respectively. The Corporation has no long-term debt obligations for the years ended June 30, 2020, 2019, or 2018.

Cash Management

The Corporation's funds are deposited into a checking account at a national banking institution. The account earned no interest for the years ended June 30, 2020, 2019, and 2018.

Economic Factors and Next Year's Budget

The West Virginia Public Defender Services, the Corporation's oversight agency, looked at various factors when approving the budget for the year ending June 30, 2021.

Economic Factors and Next Year's Budget (Continued)

Such considered factors include: the Corporation's case load in comparison to the number of professional and nonprofessional staff, the type, amount and rate of employee benefits, the anticipation of large or unusual cases which require additional resources, capital needs, as well as the operating environment and its operation needs.

Request for Information

The financial report is designed to provide an overview of the finances of the Corporation for those with an interest in the organization. Questions concerning any of the information provided in this report or request for additional financial information should be addressed to the Corporation at 509 Seventh Street, Moundsville, WV 26041.

NOTE 1— SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Description of the Reporting Entity

The Public Defender Corporation for the Second Judicial Circuit (Corporation) is a not-for-profit Corporation created under authority of Article 21, Chapter 29 of the West Virginia State Code. The Corporation is a discretely presented component unit of the State of West Virginia and is funded by West Virginia Public Defender Services. The purpose of the Corporation is to provide high quality legal assistance to indigent persons, at no cost, who would be otherwise unable to afford adequate legal counsel.

Component units are legally separate organizations for which the Corporation is financially accountable. The Corporation is financially accountable for an organization if it appoints a voting majority of the organization's governing board and (1) is able to significantly influence the programs or services performed or provided by the organization; or (2) is legally entitled to or can otherwise access the organization's recourses; is legally obligated or has otherwise assumed the responsibility to finance deficits of or provide financial support to the organization; or is obligated for the debt of the organization. Based upon the application of these criteria, the Corporation has no component units.

The Corporation's management believes these financial statements present all activities for which the Corporation is financially accountable.

Enterprise Funds

Enterprise funds are accounted for in a manner similar to private business enterprises where the intent of management is that the costs and expenses, including depreciation, of providing goods and services to the general public on a continuing basis be financed or recovered primarily through user charges and/or where management has decided that periodic determination of revenues earned, expenses incurred, and net income is appropriate for capital maintenance, public policy, management control and accountability.

Basis of Accounting

Basis of accounting refers to when revenues and expenses are recognized in the accounts and reported in the financial statements. Basis of accounting relates to the timing of the measurements made. The accounting policies of the Corporation conform to accounting policies generally accepted in the United States of America. For financial statement presentation purposes, the Corporation utilizes the accrual basis of accounting. Under this method of accounting, revenues are recognized when they are earned. Expenses are recognized under the accrual basis of accounting when the liability is incurred.

NOTE 1— SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Basis of Accounting (Continued)

The Corporation's operations are accounted for on a flow of economic resources measurement focus. With this measurement focus, all assets, deferred outflows of resources, liabilities and deferred inflows of resources associated with operations are included on the statement of net position. Net position is segregated based on restrictions imposed. The categories of net position are net investment in capital assets, restricted and unrestricted. The statement of revenues, expenses and changes in net position presents increases (i.e. expenses) in total net position.

Cash and Cash Equivalents

For purposes of the statement of net position, the Corporation considers all highly liquid investments with an original maturity of three months or less to be cash equivalents.

Receivables

All receivables are shown net of allowance for uncollectibles.

Method of Estimating Allowance for Uncollectibles: Receivables are periodically evaluated for collectability based on past history. Provision for losses is determined on the basis for loss experience, known and inherent risks. As of June 30, 2020, there was no doubt as to collectability; therefore, there is no allowance for uncollectible provision within the financial statements.

Capital Assets

Capital assets include furniture, fixtures, and computer equipment. Capital assets are stated at cost at the date of acquisition. Depreciation is computed using the straight-line method over the estimated useful lives of the assets. The Corporation's capitalization threshold is \$1,000. Depreciation expense for the years ended June 30, 2020 and 2019 was \$741 and \$857, respectively.

Estimated useful lives of the assets are as follows:

| Office Equipment | 3-6 years |
|------------------------|------------|
| Furniture and Fixtures | 5-10 years |

Net Position

Net Position represents the difference between assets and liabilities. Net investment in capital assets consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowings used for the acquisition, construction, or improvement of those assets. Net position

NOTE 1— SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Net Position (Continued)

legislation adopted by the Corporation or through external restrictions imposed by creditors, grantors, or laws or regulations of other governments. The Corporation's policy is to first apply restricted resources when an expense is incurred for purposes for which both restricted and unrestricted net position is available. No portion of the Corporation's net position was restricted at June 30, 2020.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditures during the reporting period. Actual results could differ from those estimates.

Inventory

Materials and supplies are expensed at the time of purchase. Therefore, no inventory amounts are reflected in the accompanying financial statements.

Insurance

Property and liability insurance coverage is considered adequate in the circumstances. See Note 5.

Budgetary

The Corporation is not legally required to establish an annual budget, however the Corporation does approve a budget and monitor it internally.

Pension

For purposes of measuring the net pension liability and deferred outflows/inflows of the resources related to pensions, and pension expense, information about the fiduciary net position of the Corporation's Public Employee Retirement System (PERS), and additions to/deductions from the Plans' fiduciary net position have been determined on the same basis as they are reported by the PERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

NOTE 1— SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Other Post-Employment Benefits (OPEB)

It is the Corporation's policy to permit employees to accumulate earned but unused sick pay benefits. Sick benefits can be accumulated to a maximum of 480 hours and can be carried forward to the subsequent fiscal year. When separated from employment, employees' sick leave benefits can be cashed out for one tenth of the cash value. However, upon retirement, an employee's accumulated annual sick leave may be converted to a greater retirement benefit or payment of the retired employee's health insurance premiums. The cost of the increased retirement option is the liability of the West Virginia Consolidated Public Retirement Board. The payment of health insurance premiums must be absorbed by the last agency employing the retiree and is included as part of the OPEB liability.

For purposes of measuring the net OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB, and OPEB expense, information about the fiduciary net position of the State OPEB Plan and additions to/deductions from the OPEB Plan's fiduciary net position have been determined on the same basis as they are reported by West Virginia Retiree Health Benefit Trust Fund (RHBT). For this purpose, benefit payments are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value, except for certain pooled investments, money market investments and participating interest-earning investment contracts that have a maturity at the time of purchase of one year or less, which are reported at amortized cost. See Note 6 for further discussion.

Operating Revenues and Expenses

Operating revenues are those revenues that are generated directly from the primary activity of the proprietary fund. For the Corporation, these revenues are grants from West Virginia Public Defender Services.

Operating expenses are those expenses that are expended directly for the primary activity of the proprietary fund. For the Corporation, these expenses are primarily administrative, benefits, maintenance and operations, depreciation, and travel expenses.

Income Taxes

The Corporation is exempt from income taxes under Section 501(c)(3) of the Internal Revenue Code. Therefore, no provision for income tax has been recorded in the accompanying financial statements.

NOTE 1— SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Income Taxes (Continued)

Accounting principles generally accepted in the United States require management to evaluate tax positions taken by the Corporation and recognize a tax liability (or asset) if the Corporation has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service (IRS). Management has analyzed the tax positions taken by the Corporation, and has concluded that as of June 30, 2020, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Corporation is subject to routine audits by taxing jurisdictions, however, there are currently no audits for any tax periods in progress. The Corporation's Federal Return of Organization Exempt from Income Tax (Federal Form 990), for 2017, 2018 and 2019, are subject to examination by the IRS, generally for three years after they were filed.

Deferred Outflows/Inflows of Resources

In addition to assets and liabilities, the statement of net position may report deferred outflows/inflows of resources. Deferred outflows of resources represent a consumption of net position that applies to a future period and will not be recognized as an outflow of resources (expense/expenditure) until that time. Deferred inflows of resources represent an acquisition of net position that applies to a future period and will not be recognized as an inflow of resources (revenue) until that time. The Corporation reported deferred inflows and outflows of resources for pensions and OPEBs.

Adopted Pronouncements

The Corporation has adopted Governmental Accounting Standards Board (GASB) Statement No. 90 (Majority Equity Interest). The implementation of this pronouncement had no impact on these financial statements.

NOTE 2 — CASH HELD AT FISCAL YEAR-END

At June 30, 2020 and 2019, the Corporation held cash and cash equivalents of \$190,917 and \$195,733, respectively, consisting of unexpended West Virginia Public Defender Service grant funds. West Virginia Public Defender Services considered this amount in determining the appropriate level of disbursements in the succeeding fiscal year necessary to fund the Corporation's normal operating activities.

NOTE 3 — COMPENSATED ABSENCES AND OTHER POSTEMPLOYMENT BENEFITS (OPEB)

Compensated Absences

The liability for compensated absences reported in the financial statements consists of unpaid, accumulated annual vacation balances. Estimated obligations arise for vacation leave at the current rate of employee pay. Employees with less than five years of continuous full-time employment during any period earn 15 days per year. Employees with five years, but less than 10 years of full-time employment during any continuous 10-year period, earn 20 days per year.

Also, the Corporation grants sick leave based on time worked. Full-time employees earn 20 sick days for each year of service with no maximum accumulation. The Corporation does not accrue any liability for sick leave because no amount is paid at the time of separation of employment. Upon retirement an employee may elect to use any accrued sick leave balances to increase their years of service at retirement but do not have the option for the Corporation to pay them a cash payout.

Retirement Health Plan

The Corporation contributes to the West Virginia Retiree Health Benefits Trust (RHBT), a costsharing, multiple employer defined benefit post-employment healthcare plan administered by the West Virginia Public Employees Insurance Agency (PEIA). RHBT provides medical benefit to eligible retired employees of participating employers. RHBT issues a publicly available financial report that includes financial statements and required supplementary information. That report may be obtained by writing to: West Virginia Retiree Health Benefits Trust, Building 5, Room 1001, 1900 Kanawha Boulevard East, Charleston, West Virginia, 25305-0710.

NOTE 4 — RISK MANAGEMENT

The Corporation is exposed to various risks or loss related to torts, theft, or damage to and destruction of assets, errors and omissions, injuries to employees, and natural disasters. The Board, pursuant to the provisions of State law, participates in the following risk management programs administered by the State.

Board of Risk and Insurance Management (BRIM)

The Corporation participates in the West Virginia Board of Risk and Insurance Management, a common risk insurance pool for all State agencies, component units, board of education, and other local governmental agencies who wish to participate. The Corporation pays an annual premium to BRIM for its general insurance coverage. Fund underwriting and rate setting policies are established by BRIM. The cost of all coverage as determined by BRIM is paid by the participants.

NOTE 4 — RISK MANAGEMENT (Continued)

Board of Risk and Insurance Management (BRIM) (Continued)

The BRIM risk pool retains the risk of the first \$2 million per property event and purchases excess insurance on losses above that level. BRIM has \$1 million per occurrence coverage maximum on all third-party liability claims.

Public Employees Insurance Agency (PEIA)

The Board provides employees health and basic life insurance benefits through the Public Employees Insurance Agency. PEIA was established by the State of West Virginia to provide a program of health and life insurance for employees of State agencies, institutions of higher learning, boards of education, and component units of the State. In addition, local governmental agencies and certain charitable and public service organizations may request to be covered. PEIA provides a general employee benefit insurance program which includes hospital, surgical, major medical, prescription drug and basic life and accidental death. Fund underwriting and rate setting policies are established by the PEIA Finance Board. The cost of all coverage as determined by the Finance Board is paid by the participants.

Coverage under these programs is limited to \$1 million lifetime for health and \$10,000 of life insurance coverage. Members may purchase up to an additional \$500,000 of life insurance coverage. Premiums are established by PEIA and are paid monthly. The PEIA risk pool retains the risk for the health and prescription features of its indemnity plan, has fully transferred the risks of coverage of the Managed Care Organization (MCO) Plan to the plan provider and has transferred risk of life insurance coverage to a third party insurer.

Workers Compensation Fund (WCF)

West Virginia has a single private insurance company, BrickStreet Insurance, which provides workers' compensation coverage to all employers in the state. Other private insurance companies began offering coverage to private-sector employers beginning July 1, 2008 and to government employers July 1, 2012. Nearly every employer in the State, including all boards of education, which have a payroll, must have coverage. The cost of all coverage, as determined by BrickStreet Insurance, is paid by the employers.

The WCF risk pool retains the risk related to the compensation of injured employees under the program.

Other Commercial Coverage

The Corporation is exposed to various other risks of loss related to torts; theft of, or damage to and destruction of assets; errors and omissions; injuries to employees; terrorism; natural disasters; and employee dishonesty for which the Corporation purchases commercial insurance coverage.

NOTE 4 — RISK MANAGEMENT (Continued)

Other Commercial Coverage (Continued)

During the year ended June 30, 2020 the Corporation did not reduce insurance coverages from coverage levels in place as of June 30, 2019. No settlements have exceeded coverage levels in place during the past three years.

NOTE 5 - EMPLOYEE RETIREMENT SYSTEMS AND PLANS

Public Employee Retirement System (PERS)

The Corporation participates in a statewide, cost-sharing, multiple employer defined benefit plan on behalf of the general Corporation employees. The system is administered by agencies of the State of West Virginia and funded by contributions from participants, employers, and State appropriations, as necessary.

The Corporation's cost-sharing multiple-employer plan is administered by the Consolidated Public Retirement Board (CPRB), which acts as a common investment and administrative agent for all of the participating employers. CPRB issues publicly available reports that include a full description of the pension plans regarding benefit provisions, assumptions and membership information that can be found on the CPRB website at www.wvretirement.com.

The following is a summary of eligibility factors, contribution methods, and benefits provisions:

| Eligibility to participate: | All Corporation full-time employees, except those covered by other pension plans |
|---|--|
| Authority establishing contribution obligations and benefit provisions: | State statute |
| Tier 1 Plan member's contribution rate: | 4.50% (Employees hired before July 1, 2015) |
| Tier 2 Plan member's contribution rate: | 6.00% (Employee hired after July 1, 2015) |
| Corporation's contribution rate: 2019 | 10.00% for FY 2020 and 10.00% for FY |
| Period required to vest: | 5 years |

NOTE 5 - EMPLOYEE RETIREMENT SYSTEMS AND PLANS (Continued)

Public Employee Retirement System (PERS) (Continued)

Benefits and eligibility for distribution:

| <u>Tier 1</u> | A member who has attained age 60 and has earned 5 years or more of contributing service or age 55 if the sum of his/her age plus years of credited service is equal to or greater than 80. The final average salary (three highest consecutive years in the last fifteen) times the years of service times 2% equals the annual retirement benefit. |
|--|--|
| <u>Tier 2</u> | Qualification for normal retirement is age 62 with 10 years of services or at least age 55 with and service equal to 80 or greater. The average salary is the average of the five consecutive highest annual earnings out of the last fifteen years of earnings times the years of service times 2% equals the retirement benefit. |
| Deferred portion | No |
| Provision for: Cost of living Death benefits | No Yes |

The Corporation's contributions to the West Virginia Public Employees Retirement System for the year ended June 30, 2020 is as follows:

| Percentage of Payroll | Total Wages | | Wages Coverage Wages | | Amour | nt Contributed |
|------------------------------|-------------|---------|----------------------|---------|-------|----------------|
| Employer Share - 10% | \$ | 269,121 | \$ | 269,121 | \$ | 26,912 |
| Tier 1 Employee Share - 4.5% | | 133,964 | | 133,964 | | 6,028 |
| Tier 2 Employee Share - 6% | | 135,157 | | 135,157 | | 8,110 |

The Corporation's contributions to the West Virginia Public Employees Retirement System for the year ended June 30, 2019 is as follows:

| Percentage of Payroll | Total Wages | | Coverage Wages | | Amour | nt Contributed |
|------------------------------|-------------|---------|----------------|---------|-------|----------------|
| Employer Share - 10% | \$ | 288,900 | \$ | 288,900 | \$ | 28,890 |
| Tier 1 Employee Share - 4.5% | | 152,470 | | 152,470 | | 6,861 |
| Tier 2 Employee Share - 6% | | 136,430 | | 136,430 | | 8,186 |

NOTE 5 – EMPLOYEE RETIREMENT SYSTEMS AND PLANS (Continued)

Public Employee Retirement System (PERS) (Continued)

Trend Information

| Fiscal Year | Annual Pension Cost | | Percent Contributed |
|--------------|------------------------|------------------|------------------------|
| 2020 2019 | \$ \$ | 26,912 28,890 | 100.00% 100.00% |
| 2019 | Ψ \$ | 20,090 31,895 | 100.00% |

For 2020, the required contribution was \$26,912. Of this amount, \$0 is reported in accrued expenses.

PERS issues a publicly available financial report that includes financial statements and required supplementary information. That information may be obtained by writing to the Public Employees' Retirement System, 4101 MacCorkle Avenue, SE, Charleston, WV 25304.

At fiscal year-end, the Corporation reported the following liabilities for its proportionate share of the net pension liabilities. The net pension liabilities were measured as of June 30, 2019 and 2018 for the Corporation fiscal years ended June 30, 2020 and 2019, respectively. The total pension liability used to calculate the net pension liabilities were determined by an actuarial valuation as of June 30, 2018 and rolled forward to June 30, 2019 using the actuarial assumptions and methods described in the appropriate section of this note. The Corporation's proportion of the net pension liabilities was based on a projection of the Corporation's long-term share of contributions to the pension plans relative to the projected contributions of all participating governments, actuarially determined. At June 30, 2020 and 2019, the Corporation reported the following proportions and increase/decreases from its proportion measured as of June 30, 2019 and 2018:

| | 2020 | 2019 |
|---|------------|------------|
| Amount for proportionate share of net pension liability | \$ 42,310 | \$ 54,872 |
| Percentage for proportionate share of net pension liability | 0.019678% | 0.021247% |
| Increase/(decrease) in % from prior proportion measured | -0.001569% | -0.001115% |

NOTE 5 – EMPLOYEE RETIREMENT SYSTEMS AND PLANS (Continued)

Public Employee Retirement System (PERS) (Continued)

For the years ended June 30, 2020 and 2019, the Corporation recognized the following pension expense:

| | 2020 | 2019 |
|-----------------|-----------|----------|
| | PERS | PERS |
| Pension Expense | \$ 15,362 | \$ 3,605 |

The Corporation reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources for the year ended June 30, 2020:

| | Deferred Outflows of Resources | | | ed Inflows of esources |
|--|-----------------------------------|--------|----|---------------------------|
| Net difference between projected and actual earnings on pension plan investments | \$ | _ | \$ | 15.293 |
| Differences between projected and actual | Ψ | | Ψ | 10,200 |
| experiences | | 1,638 | | 3,695 |
| Changes in proportion and differences between contributions and proportionate share | | | | |
| of contributions | | 874 | | 7,297 |
| Changes in assumptions | | - | | 7,767 |
| Contributions subsequent to measurement date | | 26,912 | | - |
| Totals | \$ | 29,424 | \$ | 34,052 |

The Corporation reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources for the year ended June 30, 2019:

| | Deferred Outflows of Resources | | ed Inflows of esources |
|--|-----------------------------------|--------|----------------------------|
| Net difference between projected and actual earnings on pension plan investments | \$ | - | \$ 32,290 |
| Differences between projected and actual experiences | | 2,722 | 136 |
| Changes in proportion and differences between contributions and proportionate share | | | |
| of contributions | | 1,724 | 4,526 |
| Contributions subsequent to measurement date | | 28,890 | - |
| Totals | \$ | 33,336 | \$ 36,952 |
| | | | |

NOTE 5 – EMPLOYEE RETIREMENT SYSTEMS AND PLANS (Continued)

Public Employee Retirement System (PERS) (Continued)

The amount reported as deferred outflows of resources related to pensions resulting from contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ending June 30, 2020. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

| Year Ended June 30: | 2020 | Year Ended June 30: | 2019 |
|---------------------|-------------|---------------------|-------------|
| 2020 | \$ (7,137) | 2019 | \$ 3,475 |
| 2021 | (27,421) | 2020 | (5,443) |
| 2022 | (1,422) | 2021 | (25,071) |
| 2023 | 4,440 | 2022 | (5,467) |
| Total | \$ (31,540) | Total | \$ (32,506) |

Actuarial Assumptions

The total pension liabilities were determined using the following actuarial assumptions, applied to all periods included in the measurement.

NOTE 5 – EMPLOYEE RETIREMENT SYSTEMS AND PLANS (Continued)

The long-term expected rate of return on pension plan investments were determined using a building-block method in which estimates of expected real rates of returns (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each asset class are summarized in the following tables:

NOTE 5 – EMPLOYEE RETIREMENT SYSTEMS AND PLANS (Continued)

| 2019 | | |

| Private Equity | 6.4% | 10.0% |
| Hedge Funds | 4.0% | 10.0% |
| | - | 100.0% |

Discount Rate

The discount rate used to measure the total pension liability was 7.5 percent for all defined benefit plans. The projection of cash flows used to determine the discount rates assumed that employer contributions will continue to follow the current funding policies. Based on those assumptions, the fiduciary net position for each defined benefit pension plan was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rates of return on pension plan investments were applied to all periods of projected benefit payments to determine the total pension liabilities of each plan.

The following chart presents the sensitivity of the net pension liability to changes in the discount rate, calculated using the discount rates as used in the actuarial evaluation, and what the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower or 1-percentage point higher than the current rate:

NOTE 5 – EMPLOYEE RETIREMENT SYSTEMS AND PLANS (Continued)

Discount Rate (Continued)

| 2020 | Decrease 3.50% | nt Discount te 7.50% | Increase 8.50% |
|--|-----------------------|-----------------------------|-----------------------|
| Proportionate share of PERS's Net pension liability | \$ 197,084 | \$ 42,310 | \$ (88,619) |
| 2019 | Decrease 6.50% | nt Discount te 7.50% | Increase 8.50% |
| Proportionate share of PERS's Net pension liability | \$ 220,976 | \$ 54,872 | \$ (85,652) |

Detailed information about the pension plans' fiduciary net position is available in the separately issued financial report available at the Consolidated Public Retirement Board's website at <u>www.wvretirement.com</u>. That information can also be obtained by writing to the West Virginia Consolidated Public Retirement Board, 4101 MacCorkle Avenue SE, Charleston, WV 25304.

NOTE 6 – OTHER POST-EMPLOYMENT BENEFIT PLAN

West Virginia Retiree Health Benefit Trust Fund (RHBT)

Plan Description:

The Corporation participates in the West Virginia Other Postemployment Benefit Plan (the Plan) a cost-sharing, multiple employer, defined benefit other post-employment benefit plan and covers the retirees of State agencies, colleges and universities, county boards of education, and other government entities as set forth in the West Virginia Code Section 5-16D-2 (the Code). The financial activities of the Plan are accounted for in the West Virginia Retiree Health Benefit Trust Fund (RHBT), a fiduciary fund of the State of West Virginia. The Plan is administered by a combination of the West Virginia Public Employees Insurance Agency (PEIA) and the RHBT staff. Plan benefits are established and revised by PEIA and the RHBT management with approval of the Finance Board. The Finance Board is comprised of nine members. Finance Board members are appointed by the Governor, serve a term of four years and are eligible for reappointment. The State Department of Administration cabinet secretary serves as the Chairman of the Board. Four members represent labor, education, public employees, and public retirees. Four remaining members represent the public-at-large.

RHBT issues publicly available reports that include a full description of the other post-employment benefit plan regarding benefit provisions, assumptions and membership information that can be obtained by contacting Public Employees Insurance Agency, 601 57th Street SE, Suite 2, Charleston, West Virginia 25304-2345, by calling (888) 680-7342 or can be found on the PEIA website at www.peia.wv.gov.

NOTE 6 – OTHER POST-EMPLOYMENT BENEFIT PLAN (Continued)

West Virginia Retiree Health Benefit Trust Fund (RHBT) (Continued)

Benefits Provided:

The Corporation's employees who retire are eligible for PEIA health and life benefits, provided they meet the minimum eligibility requirements of the PERS or meet certain other eligibility requirements of other CPRB sponsored retirement plans. RHBT provides medical and prescription drug insurance and life insurance benefits to those qualified participants. Life insurance is provided through a vendor and is fully funded by member contributions. The medical and prescription drug insurance is provided through two options; Self-Insured Preferred Provider Benefit Plan - primarily for non-Medicare-eligible retirees and spouses or External Managed Care Organizations - primarily for Medicare-eligible retirees and spouses.

The RHBT Medicare-eligible retired employees and their Medicare-eligible dependents receive medical and drug coverage from a Medicare Advantage Plan. Under this arrangement, the vendor assumes the financial risk of providing comprehensive medical and drug coverage with limited copayments. Non-Medicare retirees continue enrollment in PEIA's Preferred Provider Benefit or the Managed Care Option. The RHBT collects employer contributions for Managed Care Organization (MCO) participants and remits capitation payments to the MCO. Survivors of retirees have the option of purchasing the medical and prescription drug coverage.

Eligible participants hired after June 30, 2010, will be required to fully fund premium contributions upon retirement. The Plan is a closed plan to new entrants.

Contribution Requirements:

Employer contributions consist of pay as you go premiums, commonly referred to as paygo, and retiree leave conversion billings. Employees are not required to contribute to the OPEB plan.

Paygo premiums are established by the Finance Board annually. All participating employers are required by statute to contribute to the RHBT this premium at the established rate for every active policyholder per month. The paygo rate for fiscal years 2020 and 2019 were \$168 and \$183, respectively.

The Corporation's contributions to the West Virginia Retiree Health Benefit Trust Fund for the years ended June 30, 2020 and 2019 were \$13,944 and \$15,006, respectively. No amount was payable at year-end. Employees are not required to contribute to the OPEB plan.

Members retired before July 1, 1997, pay retiree healthcare contributions at the highest sponsor subsidized rate, regardless of their actual years of service. Members retired between July 1, 1997 and June 30, 2010, pay a subsidized rate depending on the member's years of service. Members hired on or after July 1, 2010, pay retiree healthcare contributions with no sponsor provided implicit or explicit subsidy.

NOTE 6 – OTHER POST-EMPLOYMENT BENEFIT PLAN (Continued)

West Virginia Retiree Health Benefit Trust Fund (RHBT) (Continued)

Retiree leave conversion contributions from the employer depend on the retiree's date of hire and years of service at retirement as described below;

- Members hired before July 1, 1988, may convert accrued sick or leave days into 100% of the required retiree healthcare contribution.
- Members hired from July 1, 1988, to June 30, 2001, may convert accrued sick or leave days into 50% of the required retiree healthcare contribution.

The conversion rate is two days of unused sick and annual leave days per month for single healthcare coverage and three days of unused sick and annual leave days per month for family healthcare coverage.

Contributions by Non-employer Contributing Entities in Special Funding Situations:

The State of West Virginia (the State) is a nonemployer contributing entity that provides funding through Senate Bill 419, effective July 1, 2012 and amended by West Virginia Code §11-21-96. For fiscal years beginning on and after July 1, 2016, this Senate Bill and corresponding State Code section requires that an annual amount of \$30 million from the State shall be dedicated for payment of the unfunded liability of the RHBT fund. The \$30 million annual contribution is to continue through July 1, 2037, or until the unfunded liability has been eliminated, whichever comes first.

The State is a nonemployer contributing entity that provides funding through West Virginia State Code §11B-2-32. The Financial Stability Fund is a plan to transfer an annual amount of \$5 Million to the RHBT from special revenue funds to be used to lower retiree premiums, to help reduce benefit cuts, to help reduce premium increases or any combination thereof. The \$5 million transferred pursuant to this Code shall be transferred annually into the RHBT through June 30, 2020.

The State is a nonemployer contributing entity that provides funding through Senate Bill 469 which was passed February 10, 2012, granting OPEB liability relief to the 55 County Boards of Education effective July 1, 2012. This special funding under the school aid formula subsidizes employer contributions of the county boards of education and contributes to the overall unfunded OPEB liability.

NOTE 6 – OTHER POST-EMPLOYMENT BENEFIT PLAN (Continued)

OPEB Liabilities, **OPEB** Expense, Deferred Outflows of Resources, and Deferred Inflows of Resources Related to OPEB

At fiscal year-end, the Corporation reported the following liabilities for its proportionate share of the net OPEB liabilities. The net OPEB liabilities were measured as of June 30, 2019 for the Corporation fiscal years ended June 30, 2020. The total OPEB liability used to calculate the net OPEB liabilities were determined by an actuarial valuation as of June 30, 2018 and rolled forward to June 30, 2019 using the actuarial assumptions and methods described in the appropriate section of this note. The government's proportion of the net pension liabilities was based on a projection of the government's long-term share of contributions to the pension plans relative to the projected contributions of all participating governments, actuarially determined.

At June 30, 2020 and 2019, the Corporation reported the following proportions and increase/decreases from its proportion measured as of June 30, 2019 and 2018:

| | | 2 | 2020 | | 2019 |
|---|-----|----------|---------|------|---------|
| Corporation's proportionate share of the OPEB liability States proportional share of the net OP | | • | 120,842 | \$ | 146,806 |

NOTE 6 – OTHER POST-EMPLOYMENT BENEFIT PLAN (Continued)

OPEB Liabilities, **OPEB** Expense, Deferred Outflows of Resources, and Deferred Inflows of Resources Related to OPEB (Continued)

The Corporation reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources for the years ended June 30, 2020:

| | Deferred Outflows of Resources | | | ed Inflows of esources |
|--|-----------------------------------|--------|----|---------------------------|
| Net difference between projected and actual investment earnings | \$ | | \$ | 1.304 |
| Differences between projected and actual | Ψ | - | Ψ | 1,504 |
| experiences | | - | | 14,094 |
| Deferred differences in assumptions | | - | | 24,508 |
| Changes in proportion and differences between contributions and proportionate share | | | | |
| of contributions | | 27,176 | | 5,074 |
| Contributions subsequent to measurement date | | 13,944 | | - |
| Totals | \$ | 41,120 | \$ | 44,980 |

The Corporation reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources for the years ended June 30, 2019:

| | | ed Outflows esources | Deferred Inflows of Resources | | |
|---|----|-------------------------|----------------------------------|--------|--|
| Net difference between projected and actual | | | | | |
| investment earnings | \$ | - | \$ | 2,717 | |
| Differences between projected and actual | | | | | |
| experiences | | - | | 2,172 | |
| Deferred differences in assumptions | | - | | 14,658 | |
| Changes in proportion and differences between | | | | | |
| contributions and proportionate share | | | | | |
| of contributions | | 26,098 | | 2,887 | |
| Contributions subsequent to measurement date | | 15,006 | | - | |
| Totals | \$ | 41,104 | \$ | 22,434 | |
| | - | , | | , | |

The Corporation reported deferred outflows of resources in the amount of \$13,944 related to OPEB from contributions subsequent to the measurement date for the year ended June 30, 2020.

The amount reported as deferred outflows of resources related to OPEB resulting from contributions subsequent to the measurement date will be recognized as a reduction of the net OPEB liability in the subsequent year. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

NOTE 6 – OTHER POST-EMPLOYMENT BENEFIT PLAN (Continued)

OPEB Liabilities, **OPEB** Expense, Deferred Outflows of Resources, and Deferred Inflows of Resources Related to OPEB (Continued)

| Year Ended June 30: | 2020 | | Year Ended June 30: | 2019 | | |

| 2023 | | (4,504) | 2022 | | 947 | |
| 2024 | | (1,422) | 2023 | | 1,520 | |
| Total | \$ | (17,804) | Total | \$ | 3,664 | |

Certain employers that meet the Plan's opt-out criteria are no longer required to make contributions to the Plan. These opt out employers have no continuing involvement with the Plan. Accordingly, the amounts previously allocated to such employers for the net OPEB liability and related deferred inflows and outflows are reallocated to the remaining employers participating in the cost sharing plan. The Plan reallocates these balances to the remaining active employers based on their proportionate share of contributions made in the period of reallocation. The Corporation's proportionate share of these allocations have been reflected in the balances for the Plan year ended June 30, 2019.

Actuarial Assumptions

The total OPEB liabilities were determined using the following actuarial assumptions, applied to all periods included in the measurement.

NOTE 6 – OTHER POST-EMPLOYMENT BENEFIT PLAN (Continued)

| OPEB | June 30, 2019 | June 30, 2018 |
|---|--|---|
| Actuarial Cost Method Asset Valuation Method | Entry age normal cost method Fair value | Entry age normal cost method Fair value |
| Amortization Method | Level percentage of payroll, closed | Level percentage of payroll, closed |
| Amortization Period Actuarial Assumptions: | 20 years closed as of June 30, 2018 | 20 years closed as of June 30, 2017 |
| Investment Rate of Return | 7.15%, net of OPEB plan investment expense, including inflation | 7.15%, net of OPEB plan investment expense, including inflation |
| Projected Salary Increases | Dependent upon pension system. Ranging from 3.0% to 6.5% including inflation | Dependent upon pension system. Ranging from 3.0% to 6.5% including inflation |
| Inflation Rate | 2.75% | 2.75% |
| Discount Rate | 7.15% | 7.15% |
| Healthcare Cost Trends | Trend rate for pre-Medicare per capita costs of 8.5% for plan year end 2020, decreasing by 0.5% each year thereafter, until ultimate trend rate of 4.5% is reached in plan year 2028. Trend rate for Medicare per capita costs of 3.1% for plan year end 2020. 9.5% for plan year end 2021, decreasing by 0.5% each year thereafter, until ultimate trend rate of 4.5% is reached in plan year end 2031. | Actual trend used for 2018. For fiscal years on and after 2019, trend starts at 8.0% and 10.0% for pre and post-Medicare, respectively, and gradually decreases to an ultimate trend rate of 4.5%. Excess trend rate of 0.13% and 0.0% for pre and post-Medicare, respectively, is added to healthcare trend rates pertaining to per capita claims costs beginning in 2022 to account for the Excise Tax. |

| Date Range in Most Recent | | |
| Experience Study | July 1, 2010 to June 30, 2015 | July 1, 2010 to June 30, 2015 |

Actuarial Assumptions (Continued)

The long term expected rate of return of 7.15% on the OPEB plan investments was determined by a combination of an expected long-term rate of return of 7.50% for long-term assets invested with the WV Investment Management Board and an expected short-term rate of return of 3.00% for assets invested with the West Virginia Board of Treasury Investments.

NOTE 6 – OTHER POST-EMPLOYMENT BENEFIT PLAN (Continued)

2010

Long-term pre-funding assets are invested the WVIMB. The strategic asset allocation consists of 55% equity, 15% fixed income, 10% private equity, 10% hedge fund and 10% real estate invested. Short-term assets used to pay current year benefits and expenses are invested with the WVBTI.

The long-term expected rate of return on OPEB plan investments were determined using a building-block method in which estimates of expected future real rates of returns (expected returns, net of OPEB plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Target asset allocations, capital markets assumptions, and a 10-year forecast of nominal geometric returns by major asset class were provided by the plan's investments advisors, including the West Virginia Investment Management Board (WV-IMB). The projected nominal return for the Money Market Pool held with the West Virginia Board of Treasury Investments was estimated based on WV-IMB assumed inflation of 2.0% plus a 25 basis point spread. The best estimates of geometric rates of return for each asset class are summarized in the following table:

| 2019 | Long-term Expected | Target Asset |
|---------------------------|--------------------|--------------|
| <u>Asset Class</u> | Real Return | Allocation |
| | 1.00/ | 40 =0/ |
| Global Equity | 4.8% | 49.5% |
| Core Plus Fixed Income | 2.1% | 13.5% |
| Core Real Estate | 4.1% | 9.0% |
| Hedge Fund | 2.4% | 9.0% |
| Private Equity | 6.8% | 9.0% |
| Cash and Cash Equivalents | 0.3% | 10.0% |
| Target Allocation | | 100.0% |

NOTE 6 – OTHER POST-EMPLOYMENT BENEFIT PLAN (Continued)

Discount Rate

A single discount rate of 7.15% was used to measure the total OPEB liability. This single discount rate was based on the expected rate of return on OPEB plan investments of 7.15% and a tax-exempt municipal bond rate based on an index of 20-year general obligation bonds with an average AA credit rating as of the measurement date to the extent benefits are effectively financed on a payas-you-go basis. The long-term municipal bond rate used to develop the single discount rate was 3.62% as of the beginning of the year and 3.13% as of the end of the year. The projections of cash flows used to determine this single discount rate assumed that employer contributions will be made in accordance with the prefunding and investment policies. Future pre-funding assumptions include a \$30 million annual contribution from the State through 2037. Based on those assumptions, and that the Plan is expected to be fully funded by fiscal year ended June 30, 2033, the OPEB plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on OPEB plan investments was applied to all periods of projected benefit payments to determine the total OPEB liability. Discount rates are subject to change between measurement dates. The discount rate used to measure the total OPEV liability did not change for the June 30, 2018 valuation from the June 30, 2017 valuation.

The following chart presents the sensitivity of the net pension liability to changes in the discount rate, calculated using the discount rates as used in the actuarial evaluation, and what the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower or 1-percentage point higher than the current rate:

| 2020 | 1% Decrease | | Current Discount | | 1% Increase | | |
|--|-------------|---------|------------------|---------|-------------|---------|--|
| | 6.15% | | Rate 7.15% | | 8.15% | | |
| Proportionate share of OPEBs Net OPEB liability | \$ | 144,222 | \$ | 120,842 | \$ | 101,278 | |
| 2019 | 1% Decrease | | Current Discount | | 1% Increase | | |
| | 6.15% | | Rate 7.15% | | 8.15% | | |
| Proportionate share of OPEBs Net OPEB liability | \$ | 172,541 | \$ | 146,806 | \$ | 125,353 | |

Healthcare Cost Trend Rate

The following table presents the Corporation's proportionate share of its net OPEB liability calculated using the healthcare cost trend rate of percent and the impact of using a discount rate that is 1% higher or lower than the current rate.

NOTE 6 – OTHER POST-EMPLOYMENT BENEFIT PLAN (Continued)

Healthcare Cost Trend Rate (Continued)

| 2020 | 1% E | Decrease | 1% Increase | | |
|---|------|----------|------------------------------|-------------|--|

NOTE 8 — OPERATING LEASES

The Corporation leases office facilities under an operating lease agreement. Payments under this agreement were \$14,400 for the year ended June 30, 2020.

NOTE 9 — CONTINGENCIES

The Corporation is on a reimbursement plan with the State of West Virginia, Workforce WV, Unemployment Compensation Division, (Workforce) whereby they no longer pay quarterly premiums. When a liability arises regarding the payment of unemployment, the Corporation will be assessed 100% of the awarded claim filed and payment to Workforce would be made at that time. Any liability arising from the dismissal of employment is uncertain at this time; however, management believes such amounts if any to be immaterial.

The Corporation's programs are funded from state sources, principal of which is programs of the West Virginia Public Defender Services. State grants received for specific purposes are subject to audit and review by grantor agencies. Such audits and reviews could result in requests for reimbursements to grantor agencies for expenditures disallowed under the terms of the grants. The amount, if any, of expenditures which may be disallowed by grantor agencies cannot be determined at this time, although management believes such amounts, if any, to be immaterial.

NOTE 11 — SUBSEQUENT EVENTS

Management has evaluated events subsequent to the date of the statement of financial position through the independent auditors' report date, which is the date the financial statements were available to be issued. No events have occurred subsequent to the statement of financial position date through the report date that would require adjustment or disclosure in the financial statements.

PUBLIC DEFENDER CORPORATION FOR THE SECOND JUDICIAL CIRCUIT NOTES TO REQUIRED SUPPLEMENTARY INFORMATION JUNE 30, 2020

Note 1 – Trend Information & Changes in Assumptions PERS

Trend Information Presented

The accompanying schedules of the Corporation's proportionate share of the net pension liability and contributions to PERS are required supplementary information to be presented for 10 years. However, until a full 10-year trend is compiled, information is presented in the schedules for those years for which information is available.

Plan Amendment

The PERS was amended to make changes which apply to new employees hired July 1, 2015 and later as follows:

- For employees hired prior to July 1, 2015, qualification for normal retirement is age 60 with five years of service or at least age 55 with age and service equal to 80 or greater. A member may retire with the pension reduced actuarially if the member is at least age 55 and has at least 10 years of contributory service, or at any age with 30 years of contributory service. For employees hired July 1, 2015 and later, qualification for normal retirement is 62 with 10 years of service. A member hired after July 1, 2015 may retire with the pension reduced actuarially if the member is between ages 60 and 62 with at least ten years of contributory service, between ages 57 and 62 with at least thirty years of contributory service.
- The straight life annuity retirement benefit is equivalent to 2% of average salary multiplied by years of service. For employees hired prior to July 1, 2015, average salary is the average of the three consecutive highest annual earnings out of the last fifteen years of earnings. For all employees hired July 1, 2015 and later average salary is the average of the five consecutive highest annual earnings out of the last fifteen years of earnings.
- For employees hired prior to July 1, 2015, terminated members with at least five years of contributory service who do not withdraw their accumulated contributions may elect to receive their retirement annuity beginning at age 62. For all employees hired July 1, 2015 and later, this age increases to 64 with at least ten years of contributory service, or age 63 with at least twenty years of contributory service.
- For all employees hired prior to July 1, 2015, employees are required to contribute 4.5% of annual earnings. All employees hired July 1, 2015 and later, are required to contribute 6% of annual earnings.

Note 2 – Trend Information & Changes in Assumptions OPEB

Trend Information Presented

The accompanying schedules of the Corporation's proportionate share of the net OPEB liability and contributions to RHBT are required supplementary information to be presented for 10 years. However, until a full 10-year trend is compiled, information is presented in the schedules for those years for which information is available.

Below are changes in assumptions between the 2018 and 2017 valuations:

The assumption changes that most significantly impacted the total OPEB liability were an approximate \$11.8 million decrease in the per capita claims costs for Pre-Medicare and Medicare, as well as an approximate \$224.2 million decrease due to capped subsidy costs implemented in December 2019. Certain other assumption changes were noted but did not materially impact the total OPEB liability.

PUBLIC DEFENDER CORPORATION FOR THE SECOND JUDICIAL CIRCUIT NOTES TO REQUIRED SUPPLEMENTARY INFORMATION JUNE 30, 2020

Note 2 – Trend Information & Changes in Assumptions OPEB (Continued)

Trend Information Presented

Changes in the assumptions between the 2017 and 2016 valuations:

The assumption changes that most significantly impacted the Net OPEB Liability are as follows: the inclusion of waived annuitants increased the liability by approximately \$17 million; a 15% reduction in the retirement rate assumption decreased the liability by approximately \$68 million; a change in certain healthcare-related assumptions decreased the liability by approximately \$222 million; and an update to the mortality tables increased the liability by approximately \$25 million. Certain other assumption changes were noted but did not materially impact the Net OPEB Liability.

Changes in the assumptions between the 2016 and 2015 valuations:

Certain economic and behavioral assumptions are unique to healthcare benefits. These assumptions include the healthcare trend, per capita claims costs, the likelihood that a member selects healthcare coverage and the likelihood that a retiree selects one-person, two person or family coverage. These assumptions were updated based on a recent experience study performed by the RHBT actuaries using five-year experience data through June 30, 2015. The updated per capita claims costs were also based on recent claims, enrollment and premium information as of the valuation date.

For the June 30, 2016 valuation, the retiree healthcare participation assumption for each retirement plan is slightly higher than the previous assumption used in the June 30, 2015 OPEB valuation. More members who were covered as actives will be assumed to participate as retirees.

The 2016 and 2015 valuations include consideration of the \$30 million annual appropriations under Senate Bill 419, through July 1, 2037, or if earlier, the year the benefit obligation is fully funded. Additionally, the presentation of covered payroll was changed for the June 30, 2015, actuarial valuation. Participating employees hired before July 1, 2010, pay retiree premiums that are subsidized based on years of service at retirement. Participating employees hired on or after July 1, 2010, are required to fully fund premium contributions upon retirement. Consequently, beginning June 30, 2015, actuarial valuation covered payroll represents only the payroll for those OPEB eligible participating employees that were hired before July 1, 2010, allowing a better representation of the UAAL as a percentage of covered payroll, whereas, for the prior years, covered payroll is in total for all participating employees.

Public Defender Corporation for the Second Judicial Circuit (A Component Unit of the State of West Virginia)

Independent Auditor's Report in Accordance with *Government Auditing Standards*

Year Ended June 30, 2020

MaherDuessel

Independent Auditor's Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards*

Board of Directors Public Defender Corporation for the Second Judicial Circuit We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the Public Defender

Corporation for the Second Judicial Circuit (Corporation), as of and for the year ended June 30, 2020, and the related notes to the financial statements, which collectively comprise the Corporation's basic financial statements, and have issued our report thereon dated October 5, 2020.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Corporation 's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Corporation's internal control. Accordingly, we do not express an opinion on the effectiveness of the Corporation's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Board of Directors Public Defender Corporation for the Second Judicial Circuit Independent Auditor's Report on Internal Control over Financial Reporting and on Compliance and Other Matters

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Corporation's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
